

QUALITY POLICY

Puritas (Private) Limited shall strive for excellence in every aspect of our business in providing tailor made solutions on waste management, influent/effluent treatment, air purification, renewable energy requirements and manufacturing and marketing of value added activated carbon products in the most efficient and cost effective manner. We shall demonstrate our uncompromising commitment to comply with legislative and other requirements while addressing our customer needs and expectations to their fullest satisfaction. We shall be fully committed to be recognized in the trade, as a good corporate citizen upholding our public responsibility to comply with the applicable environmental standards and thereby creating a healthy environment for every one.

In pursuit of the above policy the following core values are recognized:

- To design and construct treatment plants/ manufacture quality products and offer after sales and support services.
- To be abreast of the latest and most appropriate technologies and materials.
- To continually improve the effectiveness of our products and systems.
- To treat our employees with dignity and respect and develop their capabilities to meet future challenges.
- To consider our suppliers as an integral part for our business excellence.

I pledge my full commitment to this quality policy and to provide an enabling environment to facilitate its implementation and success.

H.S.R.Kariyawan

Managing Director
